Product Description

Mozzie Stoppa™, improves water quality by keeping pests out of the rainwater tank and allowing the tank water to breathe.

Hi-Flow Flap Valves, allows a rapid flow of water through a double sealed, self cleaning valve that cannot be over rotated and left open.

Vent Cowls, are an ideal method for providing air circulation through tanks where rainwater is piped directly into the top or side of the tank, rather than passing through a tank screen. Vent Cowls are also designed to fit the top of toilet vent pipes, to reduce pan syphoning.

Feature & Benefits

Mozzie Stoppa™

- 0.955mm stainless steel screen
- Prevents pests from entering the tank via the overflow
- Allows the tank water to breathe
- Fits directly to 90mm or 100mm pipes

Hi-Flow Flap Valves

- Automatically opens & shuts
- Prevents pests from entering the tank via the overflow
- Higher overflow flow rate for high rainfall events
- Self cleaning

Vent Cowls

- 0.955mm stainless steel screen
- Improves water quality
- Allows the tank water to breathe

Compliance

AS/NZS 4020:2005 –Testing of products for use in contact with drinking water
(100mm M&F Screen undergoing AS/NZS 4020:2005 certification)

Installation

Mozzie Stoppa™ Screens

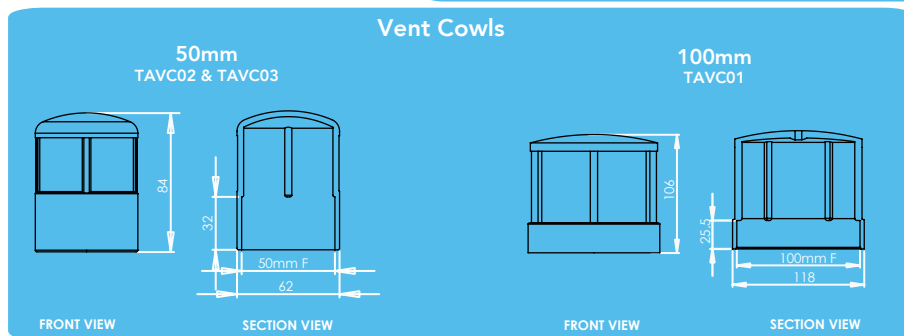

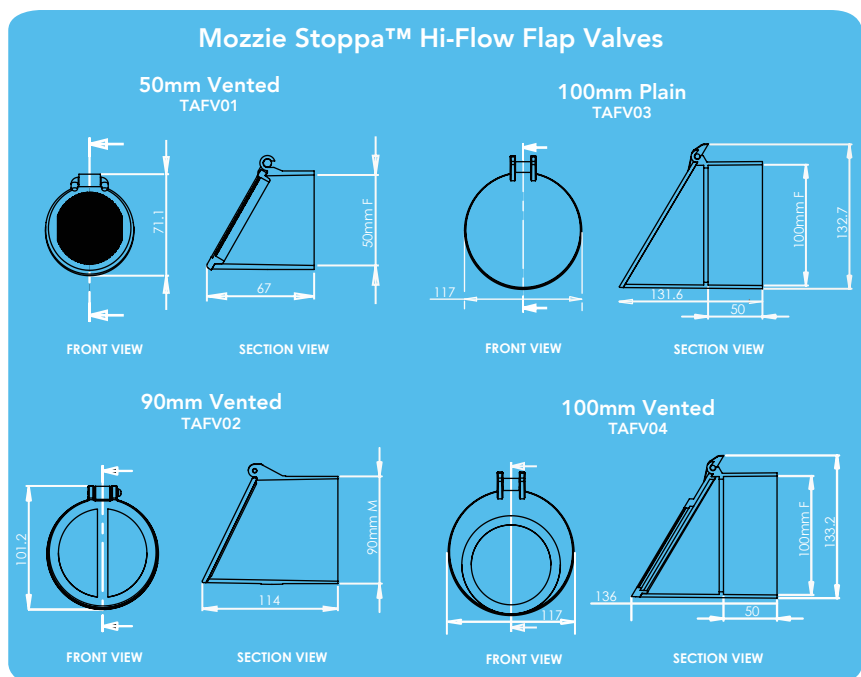

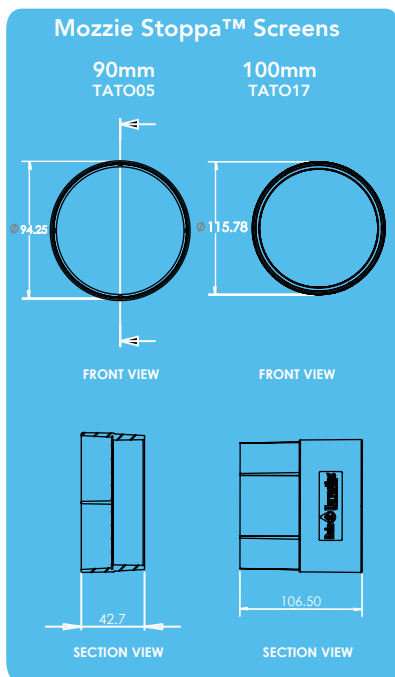

The Mozzie Stoppa™ incorporates a Male and Female press fitting that does not require solvent cement glue to install. To install, simply press the fitting into the overflow outlet. When selecting a location for the Mozzie Stoppa™ consideration must be given to maintenance, the Mozzie Stoppa™ must be removable to allow cleaning of the stainless steel mozzie screen. It is important that the Mozzie Stoppa™ is not glued to the pipe outlet for easy maintenance.

Mozzie Stoppa™ Hi-Flow Flap Valves.

Secure directly to the overflow outlet with or without silicone.

Vent Cowl.

Secure by gluing directly to the top of the rainwater tank or vent pipe.

ALL DIMENSIONS IN MM UNLESS OTHERWISE STATED.

Maintenance

Mozzie Stoppa™ Screens

Remove the Mozzie Stoppa™ from the pipe and clean the stainless steel screen. Replace the Mozzie Stoppa™ immediately.
