

# BLUEWATER TANKS DELIVERY ZONES

## Delivery Zone A

If you **ARE** located within this delivery zone then freight will be calculated upon checkout.

If you **ARE NOT** located within this zone then once an order is placed online a representative from Bluewater Tanks will be in touch with you to arrange a freight quotation.

This delivery zone is for the Rapid Plastics WA Range of products.

### ON DELIVERY OF YOUR TANK OR PRODUCTS

- Please be aware that the truck delivering your tank or products ordered requires a minimum clearance of 20 meters long, 3.5 meters wide and 5 meters high.
- Clear access on roads, lane ways, though gateways, crossings and trees are essential to ensure safe delivery of your tank/products without damage.
- If a driver cannot reach the location the tank/s will be left at the closest practical position. Large tanks can be delivered direct to property where there is a properly made road and large turning area available. It is the owner's responsibility to provide clear access to site.
- Placement of tank on pad needs customer assistance, three persons (NOT including the driver) required to place tanks above 22,500 litres.
- Please contact Bluewater Tanks if you believe that there may be any issues with the delivery of your tank/s.

## Delivery Zone B

If you **ARE** located within this delivery zone then freight will be calculated upon checkout.

If you **ARE NOT** located within this zone then once an order is placed online a representative from Bluewater Tanks will be in touch with you to arrange a freight quotation.

This delivery zone is for the Omni Manufacturing Range of products.

### **ON DELIVERY OF YOUR TANK OR PRODUCTS**

- Please be aware that the truck delivering your tank or products ordered requires a minimum clearance of 20 meters long, 3.5 meters wide and 5 meters high.
- Clear access on roads, lane ways, though gateways, crossings and trees are essential to ensure safe delivery of your tank/products without damage.
